More than 90 per cent of world's buildings, including some 800 million homes, constitute architecture of ordinary people. This book explores types and forms of vernacular houses worldwide. It also documents form of traditional buildings that are self-built by their owner-occupiers or built by members of a community. More Details... Dwellings is today our most sweeping synthesis of vernacular architecture studies. It is also surely the most accessible, providing lucid explanation of the meaning of traditional buildings that folklorists might wish Henry Glassie's meditative but sometimes inscrutable Vernacular Architecture (2000) had achieved.
