

# Download Guide Utilisation Solidworks 2015

The use of the RIEGL terrestrial laser scanners, combined with RiSOLVE, is optimized for accident collision investigations. The state of the art hardware and software can be used to rapidly collect evidence at the scene of collisions, which helps to reduce the amount of time roads are closed, reduce lane closures, and minimize road congestion. Access Google Sheets with a free Google account (for personal use) or G Suite account (for business use). The Job: To support the Project Management team in the execution of customer projects. This will include the management of functional requirements from a technical, manufacturing and perspective to deliver the project on time. All the same Lynda.com content you know and love.
