DriverFinder can save you time and remove any guesswork related to researching driver issues by providing instant access to the most relevant content for your computer's hardware, solution article, even some of the old device which not supported/provided by the device manufacturer's website again. The Logitech G27 is an electronic steering wheel designed for Sim racing video games on the PC, PlayStation 3 and PlayStation 2. It uses a USB interface, and is based upon the previous G25, with some new features including the use of helical gearing instead of the previous straight gears used on the G25. As of December 2015, the Logitech G27 is no longer sold by Logitech, in favor of the newer ...
