

# Download Nursing Care Of The Person Who Smokes

The Irony Of The Nurse Who Smokes. It may be legal, but their product kills 440,000 people per year. That's the same as if three 747 jets crashed every day for a year and killed all their passengers. Nurses have the highest smoking rate among healthcare providers, estimated to be about 18 percent. Tobacco is highly addictive, and 90 percent of smokers start before the age of 18. Smoking and disease --Understanding smoking behavior --Helping smokers quit --Pharmacological adjuncts to smoking cessation --Nursing care of the ill smoker --Smoking and nutrition --Drug interactions and tobacco smoking --Nurse who smokes --Prevention of tobacco smoking --Social, political, legal, economic and ethical aspects of tobacco use. Chapter 1 - Introduction to nursing. the Latin word *nutrix*, meaning "to nourish.". Nursing encompasses autonomous and collaborative care of individuals of all ages, families, groups, and communities, sick or well and in all settings. Nursing includes the promotion of health, prevention of illness, and the care of ill, disabled, and dying people. There are many reasons a nurse would smoke. Nurses are still vulnerable to the same mental illnesses that the rest of the population is. I'm a CNA with an eating disorder and I know recovered alcoholic nurses, plenty of nurses who smoke cigarettes, CNAs and nurses with eating disorders, etc. We know it is bad for us.
