Acute Toxicity from Topical Cocaine for Epistaxis: Treatment with Labetalol. Richards JR et al. J Emerg Med 2017 Mar;52:311-313. Abstract. There has long been a debate among toxicologists — still unresolved — as to whether it is safe to use a beta-blocker to treat cocaine-related hypertension and tachycardia. The famous four-star Hotel Alex in Zermatt will be the hub and beating heart of the conference. The Alex is situated in a beautiful and quiet location, only a few minutes walk from the Zermatt railway station. All lecture sessions will held in their main conference facility.
