

Download Progress Note Vascular Surgery

The solution starts in the US with a shift in reimbursement to recognize the time and effort required to perform open vascular surgery well and to reward the programs and surgeons who are consistently good. Training in open vascular surgery will be sought after much as everyone wanted to be a cardiac surgeon back in the 1970's. Surgery MS3 ICU Progressive Note. Date Time. Significant 24hr events/road trips, subjective complaints (Ask the nurses!) Meds. Neuro: PE, GCS, sedative drips, pain control CV: PE/vasc exam (where appropriate) HR (range) BP (range) CVP (range) Cardiac parameters (if PA cath in place) Progress Note MSIII Surgery S: 33 yo female admitted for appendicitis, hospital day #3, POD (post-op day) #2, s/p appendectomy. Abx – Flagyl day #1. Patient having some peri-incisional pain, however pain is well controlled with PCA (patient controlled analgesia pump). The Lancaster General Health Physicians Surgical Group performs vascular and endovascular surgery, teaming with other specialists at the Heart & Vascular Institute to help manage and treat a full range of vascular conditions.
