What Just Happened: A Chronicle from the Information Frontier [James Gleick] on Amazon.com. *FREE* shipping on qualifying offers. For the past decade change seemed to happen over night, every night. Fueled by the exponential rise of technology

What Just Happened: A Chronicle from the Information Frontier. His dispatches--by turns passionate, bewildered, angry, and amazed--form an extraordinary chronicle. Gleick loves what the network makes possible, and he hates it. Software makers developed a strangely tolerant view of an ancient devil, the product defect.
