Yom wrote:how often do you service it out of curiosity and using what materials? your symptom description isn't good enough. What colour smoke is it blowing and what happens when you rev it? Does the sound get louder, more frequent, start to go away?Im about to pick up a new common rail patrol, from what i have heard the problems where where fixed in models after 2001, Look how many ZD30 powerd patrols there are out there on the road ,if they where that bad people wouldn't buy them and nissan would have put a different engine in them. i believe that an engine will last according to how its treated and serviced.Keywords: factory MF Massey Ferguson MF135 MF150 MF165 Tractor factory workshop and repair manual on PDF can be viewed using free PDF reader like adobe or foxit or nitro .Engines for sale in New Zealand.
